Subject: RE: Ohio Oil Refinery site in Bristow

I asked because Janna from the Fox station sent me an email you sent to a homeowner in March 2015 (see below). Did anything come of this? I know we won't share any info about private property.

She appears to be trying to connect the Ohio Oil and Wilcox sites.

We are trying to learn as much as we can about the Ohio Oil Company which owned and operated a facility located on or near your property. I have heard that there are property deeds of some residences living on or near the old Ohio Oil Company property that indicates Wilcox was a previous owner. I would like to know if you are willing to review your property deed to see if Wilcox is listed as a previous owner. Also, if Wilcox is listed as a previous owner, would you be willing to provide/share with us a copy of the deed?

No. EPA is not doing work on that site. I believe Blake indicated that the site is under the ODEQ volunteer cleanup program. Todd Downham is the project manager for that site. I have copied Todd and his Supervisor, Amy Brittain on this email. Hopefully, this will help.

Hi! Are you doing any work on the Ohio Oil Refinery site that's near Wilcox? Is that area included in the RI?
